

PROBLEM STATEMENT

PIZZA SALES REPORT DASHBOARD

KPI's REQUIREMENT

We need to analyze key indicators for our pizza sales to gain insights to our business performance. Specially we want to calculate the following matrices.

1. **Total Revenue :** The sum of the total prize of all pizza orders.
2. **Average Order Value:** The average amount spent per order, calculated by dividing the total revenue by total number of order.
3. **Total Pizza Sold:** The sum of the quantities of all pizza sold.
4. **Total Orders:** The total number of orders placed.
5. **Average Pizza Per Order:** The average number of pizza sold per order, calculated by dividing the total number of pizza sold by total number of orders.

PROBLEM STATEMENT

CHARTS REQUIREMENT

we would like to visualize various aspects of pizza sales data to gain insights and understands key trends. We have identified the following requirements for creating charts.

1. **Daliy Trend For Total Orders:** Create a bar charts that displays the daily trends of total order over a specific time period. This charts will help us identify any pattern and fluctuation in order volume on a daily basis.
2. **Monthly Trend For Total Orders:** Create a line charts that displays hourly trends of total throughout the day. This chart allow us to identify peak hours or period of high order activity.
3. **Percentage of sales by pizza category:** Create a pie chart that show the distribution of sales across different pizza categories. This chart will provide insights into the popularity of various pizza categories and their contribution to overall sales.

4. **Percentage of Sales by Pizza Size:** Generate a pie charts that represents the percentage of sales attributed to different pizza sizes. This chart will help us to understand customer preferences for pizza size and their impact on sales.
5. **Total Pizza Sold by Pizza Category :** Create a funnel charts that presents the total number of pizza sold for each category. This charts will allow us to compare the sales performance of different pizza categories.
6. **Top 5 Salers by Revenue, Total Quantity and Total Orders:** Create a bar charts highlighting the top 5 best-selling pizza based on Revenue, Total Quantity, Total Orders. This chart will help us to identify the most popular pizza options.
7. **Bottum 5 Best-Seller by Revenue, Total Quantity, Total Orders:** Create a bar charts showcasing bottom 5 worst-selling pizza based on Revenue, Total Quantity, Total Orders This chart enable us to identify underperforming or less popular pizza options.
